

## Sustainable Palm Oil in Europe\*

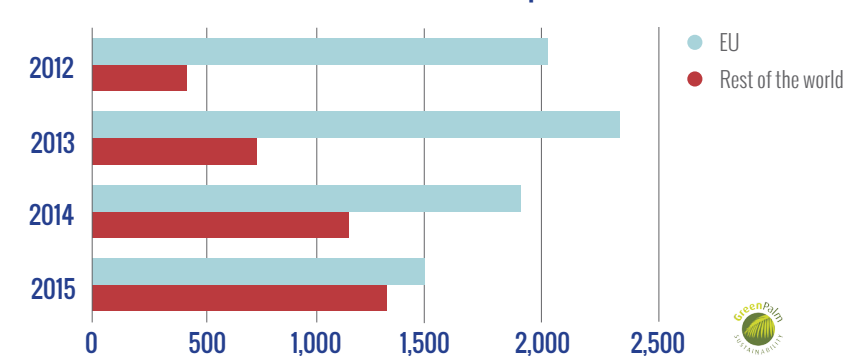

\*Based on currently reported data by the National Initiatives. Denmark, Norway and Italy have committed to use 100% CSPO by 2020.

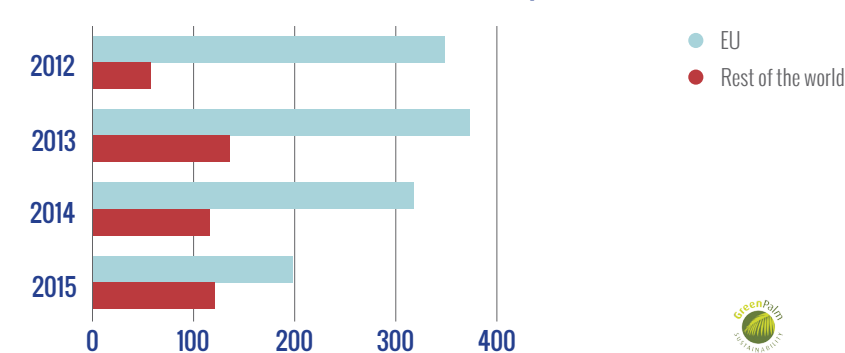

## EU import of RSPO certified sustainable palm oil (Mass Balance and Segregated)

## Redeemed RSPO Book&Claim certificates for palm oil

## Redeemed RSPO Book&Claim certificates for palm kernel oil

## Major initiatives and associations working on sustainable palm oil in Europe

### RSPO

Since 2004, the **Roundtable on Sustainable Palm Oil** has been transforming the palm oil industry in collaboration with the global supply chain. It has pledged to help support and build a 100% Certified Sustainable Palm Oil (CSPO) EU market by 2020.

### European National Initiatives

Various companies and industry associations work together in National Initiatives to increase the uptake of sustainable palm oil in their respective countries.

### ESPO

The **European Sustainable Palm Oil project** (established by IDH and MVO) drives the uptake of more sustainable palm oil to 100% in Europe by 2020.

### EPOA

The **European Palm Oil Alliance** is committed to create a science based and balanced view on the nutritional and sustainability aspects of palm oil.

### ESPOAG

The EU food sectors (AIBI, CAOBISCO, FEDIMA, FEDIOL and IMACE) united in the **European Sustainable Palm Oil Advocacy Group** advocate for a balanced, science based debate on sustainable palm oil and promote the uptake of CSPO.

## Certification standards for Sustainable Palm oil

In food and HPC (home and personal care products), the main certification standard used is the **Roundtable on Sustainable Palm Oil (RSPO)**. The RSPO has developed a set of environmental and social criteria which companies must comply with in order to produce CSPO. In 2015, **12,9 million MT** was certified according to the RSPO Principles and Criteria.

Other certification standards for sustainable palm oil are offered by the **International Sustainability and Carbon Certification (ISCC)** and **Rainforest Alliance**. Indonesia and Malaysia have developed their own standards for certified sustainable palm oil. The **Indonesian Sustainable Palm Oil (ISPO)** and **Malaysian Sustainable Palm Oil (MSPO)** are important steps towards more sustainable production.

With the support of several European national initiatives, ESPO instigated the 'Commitment to Support 100% Sustainable Palm Oil in Europe by 2020'. In response, the governments of key EU countries declared their support towards the project by signing the Amsterdam Palm Oil Declaration.

**Commitment to Support 100% Sustainable Palm Oil in Europe**

We declare to work together and support each other in transforming toward a 100% sustainable palm oil supply chain in Europe by 2020

**The Amsterdam Palm Oil Declaration**  
by the following European governments:

Denmark  
France  
Germany  
The Netherlands  
Norway  
United Kingdom
